📍 Wrocław, Polska | 🌐 [Github](#) | [LinkedIn](#)

Summary

Full-stack developer with 4+ years of commercial experience in building and maintaining scalable microservices using **C#/.NET Core, TypeScript, and React**. **Scrum Master** leading a team of 5 developers in Agile/Scrum environments. Strong background in **CI/CD**, cloud solutions (**Azure**), and multi-database architectures. Passionate about clean code, automation, and delivering business value.

Experience

Unit4 Poland
2021 - current
Software Engineer (Junior → Mid)
Led a team of 5 developers as **Scrum Master**, facilitating Agile ceremonies and improving delivery predictability. Designed and developed scalable time-tracking microservices using **C#/.NET Core** and **TypeScript**, serving enterprise ERP clients. Architected multi-database solutions (**PostgreSQL, MySQL, NoSQL**) optimised for performance and scalability. Implemented **CI/CD pipelines** in **Azure DevOps**, reducing deployment time and manual errors.
